Our culture of building and maintaining successful partnerships instills confidence in achieving both employee and client goals.

Position Rationale

Reporting to a Foreman, an Excavator Operator is responsible for safe and efficient operation of an excavator. An Excavation Operator will perform duties as assigned to ensure that completed work is delivered according to Volker Stevin Contracting Ltd.’s company policies and procedures, Alberta Occupational Health and Safety, and contract specifications.

Position Accountabilities

Equipment Operation:

- Operate an excavator and other heavy equipment in a safe and appropriate manner.
- Perform daily maintenance and safety checks of equipment.
- Perform routine cleaning and maintenance to ensure smooth operation of an excavator.
- Conduct pre-operational checks on equipment, and clean, lubricate and refuel equipment as necessary.
- Ensure trench is excavated to the proper depth/grade, and at minimum meets with OH&S requirements.
- Responsible to crane material and/or equipment at the worksite. Be aware of the proper rigging process.
- Follow directions of ground crew regarding excavation, grading, craning, and gravel placement.
- All work is to be carried out to a high standard of quality, without compromising safety or efficiency.

- Operate an excavator on public roadways, maintaining proper awareness of one’s surroundings.
- Operate an excavator within an active site occupied by other heavy equipment and ground personnel, maintaining proper awareness of one’s surroundings.
- Operate other heavy equipment; other construction related duties as required.

Technical Knowledge:

- Possess knowledge of excavators and other heavy equipment.
- Knowledge of underground utility construction materials, processes, and industry requirements.
- Valid Ground Disturbance certificate.
- Understanding of computerized controls and electronics.

Customer Service:

- Project a professional image in dealing with the public, internal and external clients, suppliers, and subcontractors.
- Demonstrate a “can do” attitude, problem solving approach to all inquiries and concerns.
- Know when to escalate an issue for immediate response.

Working Environment / Conditions:

- Work is performed in an outdoor setting, which could include inclement weather, heat and humidity, and exposure to dust.
- Must be physically able to lift and carry at least 20 LBS on an occasional basis.
- Valid Class 5 Operators License; Clean Drivers Abstract.
- Possible out of town and weekend work as required.

Safety:

- Actively engage in the company’s culture of Safety Excellence.
- Engage management on an ongoing basis regarding safety activities and successes.
- Remain visibly committed to the safety excellence way of life by:
 - Participating in all relevant safety training.
 - Actively and positively participating in weekly safety meetings.
 - Actively and positively participating at worksite.

Position Requirements

Qualifications & Experience:

- High School Diploma or G.E.D is preferred; with experience in related construction activities.
- Minimum 3 – 5 years’ experience within the underground utility construction industry.
- Minimum 2 – 3 years’ experience operating an excavator is required.
- Valid Class 5 Operator’s License; clean Driver Abstract.
- Knowledge of underground utility installation, process, materials, industry standards, and OH&S requirements.
- Ability to work in adverse weather conditions.
- Valid Ground Disturbance certificate.
- Physically capable to lift and carry at least 20 LBS on an occasional basis.
